From the Create team

Create Construction is a well-established residential building company run by Richard Heath and Craig Spratling; award-winning builders with over 40 years combined experience in the industry and a long history of creating beautiful homes for satisfied customers.

Over the last 10 years, Create has evolved into a leading construction company in the Inner West and Eastern Suburbs of Sydney, with a vision to be the builder of choice for people who aspire to live in uniquely built, high-end homes.

From new builds to renovations, swimming pools to wine cellars you can trust Craig and Richard's team to bring your dream home to life.

The team's approach to a project reflects a commitment to reliability, affordability and excellence, without compromise. They are dedicated to client satisfaction and cultivate strong relationships with subcontractors and material suppliers to ensure they can deliver quality at every step.

our services

Create has every part of your build covered

We have a wealth of knowledge and expertise to draw on when it comes to making your dream build a reality. Below is a selection of the services we provide.

Luxury home renovation specialists

Our team of expert builders and highly skilled specialists will transform your home into a beautiful living space tailored to your lifestyle. We understand every detail involved in transforming your house into a perfect home with high-end and high quality finishes. You'll be fully informed and guided through every step of the project to ensure the renovation exceeds your expectations.

Brand new houses

We can turn your vision into a reality by using high-end building materials and designer finishes to create a home you will love living in and can be proud to show off to your friends.

Swimming pools

A luxurious swimming pool at your property is the perfect addition for those hot Sydney days. Let us improve the value and allure of your property by fully installing a swimming pool to an existing or new build.

Cosmetic & structural renovations

Is your place in dire need of structural alterations? Do you need to create space by opening up rooms? Do you want to change the interior or exterior of your home? We have the knowledge and expertise to carry out your renovations.

Extensions & first floor additions

Whether your family is multiplying or you simply want more space, we can assist by using our experience in extensions and additions to improve your home.

Demolition

The ever important first step to any project. We carry out all demolition with close attention to safety and correct disposal procedures.

Signature Cellars

Your experts in home wine storage and the exclusive suppliers of the underground Spiral Cellar, which is a unique space-saving wine storage solution. These innovative cellars can be fully installed in just two weeks and usually require no additional energy to maintain. If space is not an issue, Signature Cellars can convert an existing space or build a completely new above ground Wine Room in which to house your wine collection in temperature-controlled comfort. We offer a range of different racking styles and options from the classic to the ultra-contemporary. www.signaturecellars.com.au

our process

From the first consultation through to handover, our level of care and attention to detail never fails to impress.

1 Consultation & briefing

Contact us for a free, no-obligation consultation and let us use our experience to capture your ideas. Whether you want a total home makeover or simple additions, we can guide you through this process. We also have several Architects that we can recommend to produce a design tailored to your needs.

2 Preliminary works/demolition

We have the expertise and specialist machinery to suit tight access projects such as traditional terraces, sometimes driving through the front door to gain access when rear access is unavailable. We listen to your needs to ensure we capture every detail of your project.

3 Construction

Trust our team of skilled builders to take care of all the hard work needed to complete your project. During each build, we reduce our environmental impact by recycling materials wherever possible. This includes enviro concrete, recycled hardwoods for windows, beams and flooring, reusing bricks and sourcing new timbers from managed regrowth forests.

4 Handover

The final touches. We will make the hand over smooth and effortless by taking care of final inspections and cleaning of your property leaving it complete and ready for you to move in.
